**imagine LAN's P.I. Protector Mobility Suite
for U3 Smart Drives Available from U3 Software Central**

Portable Outlook/Outlook Express, Private Internet Browsing and Profile-based File Synchronization Available from U3 Software Central

Nashua, NH, , January 19, 2006 — imagine LAN Inc., the leading provider of mobility, system health and security solutions for mobile professionals and “on the go” users of USB flash drives, today announced the availability of P.I. Protector™ Mobility Suite for U3™ powered USB smart drives on the U3 Software Central Site. P.I. Protector includes imagine LAN's patent-pending portable e-mail technology, which provides users with portable Outlook® and Outlook Express e-mail access as well as private Internet Explorer Web browsing with portable browser settings, and profile-based file synchronization. U3 Smart Drive users can purchase the software for only \$20.00 (USD) from the U3 Software Central site at <http://software.u3.com/>, or by selecting “Add Programs” from their U3 LaunchPad menu.

Since its introduction in 2002, P.I. Protector's portable e-mail technology has addressed the growing consumer need to carry e-mail on a portable USB flash drive for use on multiple PCs. P.I. Protector provides the only portable e-mail solution in its category to offer support for both Outlook and Outlook Express e-mail.

“USB flash drive users cite portable e-mail as one of the most desired applications for the USB flash drive,” said Duen-Ping Tsay, founder and president, imagine LAN Inc., and with today's larger capacity/reasonably priced U3 Smart Drives, users can port their entire email profile to the Smart Drive and keep it there - permanently, always ready to travel and use on any PC and never needing synchronization.”

Founded in 1992 and privately held, imagine LAN Inc. develops USB “FlashWare” – mobility, system health and security applications designed to take advantage of the compact, portable nature of the USB flash drive and other portable storage devices. Designed for Microsoft Windows users with multiple PCs and people with “on the go” lifestyles, imagine LAN provides innovative solutions that help flash drive users work more efficiently, productively, and with greater privacy and security. Currently, there are more than 30 million users of imagine LAN products worldwide. Customers include original equipment manufacturers (OEMs), Fortune 1000 corporations, government and educational institutions, resellers, small/home office and individual end-users.

For more information about imagine LAN products, visit the company's Web site at <http://www.imaginelan.com/products.html>. imagine LAN is located at 74 Northeastern Blvd., Suite 12, Nashua, N.H., 03062.

P.I. Protector is a trademark of imagine LAN, Inc. U3 is a trademark of U3 LLC. All other brand and product names are or may be trademarks of, and are used to identify products or services of, their respective owners.
